Rugged Design For Moving The Heaviest Cargo Loads Across Rough Terrains And Long Distances.

**Features**
- Patent-pending handle design for push/pull maneuverability
- Durable U-frame welded construction
- Rugged pneumatic casters, 2 rigid, 2 swivel with brake
- Ergonomic 42" handle height for maximum leverage
- Dual top handles
- 700 lb. total load capacity
- Corner top bumpers
- Sturdy reinforced top shelf
- Bottom shelf rails

**Benefits**
- Unique handle design allows for maximum leverage with heavy loads over all types of surfaces
- Designed for the roughest terrains and long trips
- Dual-handle design allows two-person guided transport for challenging outdoor use
- Large wheels roll smoothly over thresholds and uneven surfaces
- Sturdy shelves with edges on 3 sides hold cargo securely while providing easy loading/unloading

**Specifications**
Unit is of welded stainless steel U-frame construction with three 18-gauge shelves. Top and middle shelves have 1" turned up edge on three sides. Leg frames are 1/8" angle stainless steel. Bottom shelf has guard rail on ends. One end of unit has patent-pending bottom hinged handle that swings from frame to allow for safe pulling by operator, or two-person operation. Movable handle locks into upright position in frame for conventional pushing action. Casters are 6" (or 8") pneumatic, two ea. swivel and two ea. rigid, with 2" wide ribbed tread. Casters are plate-mounted to reinforced stainless steel crossmembers.
